

Online Monitoring Update

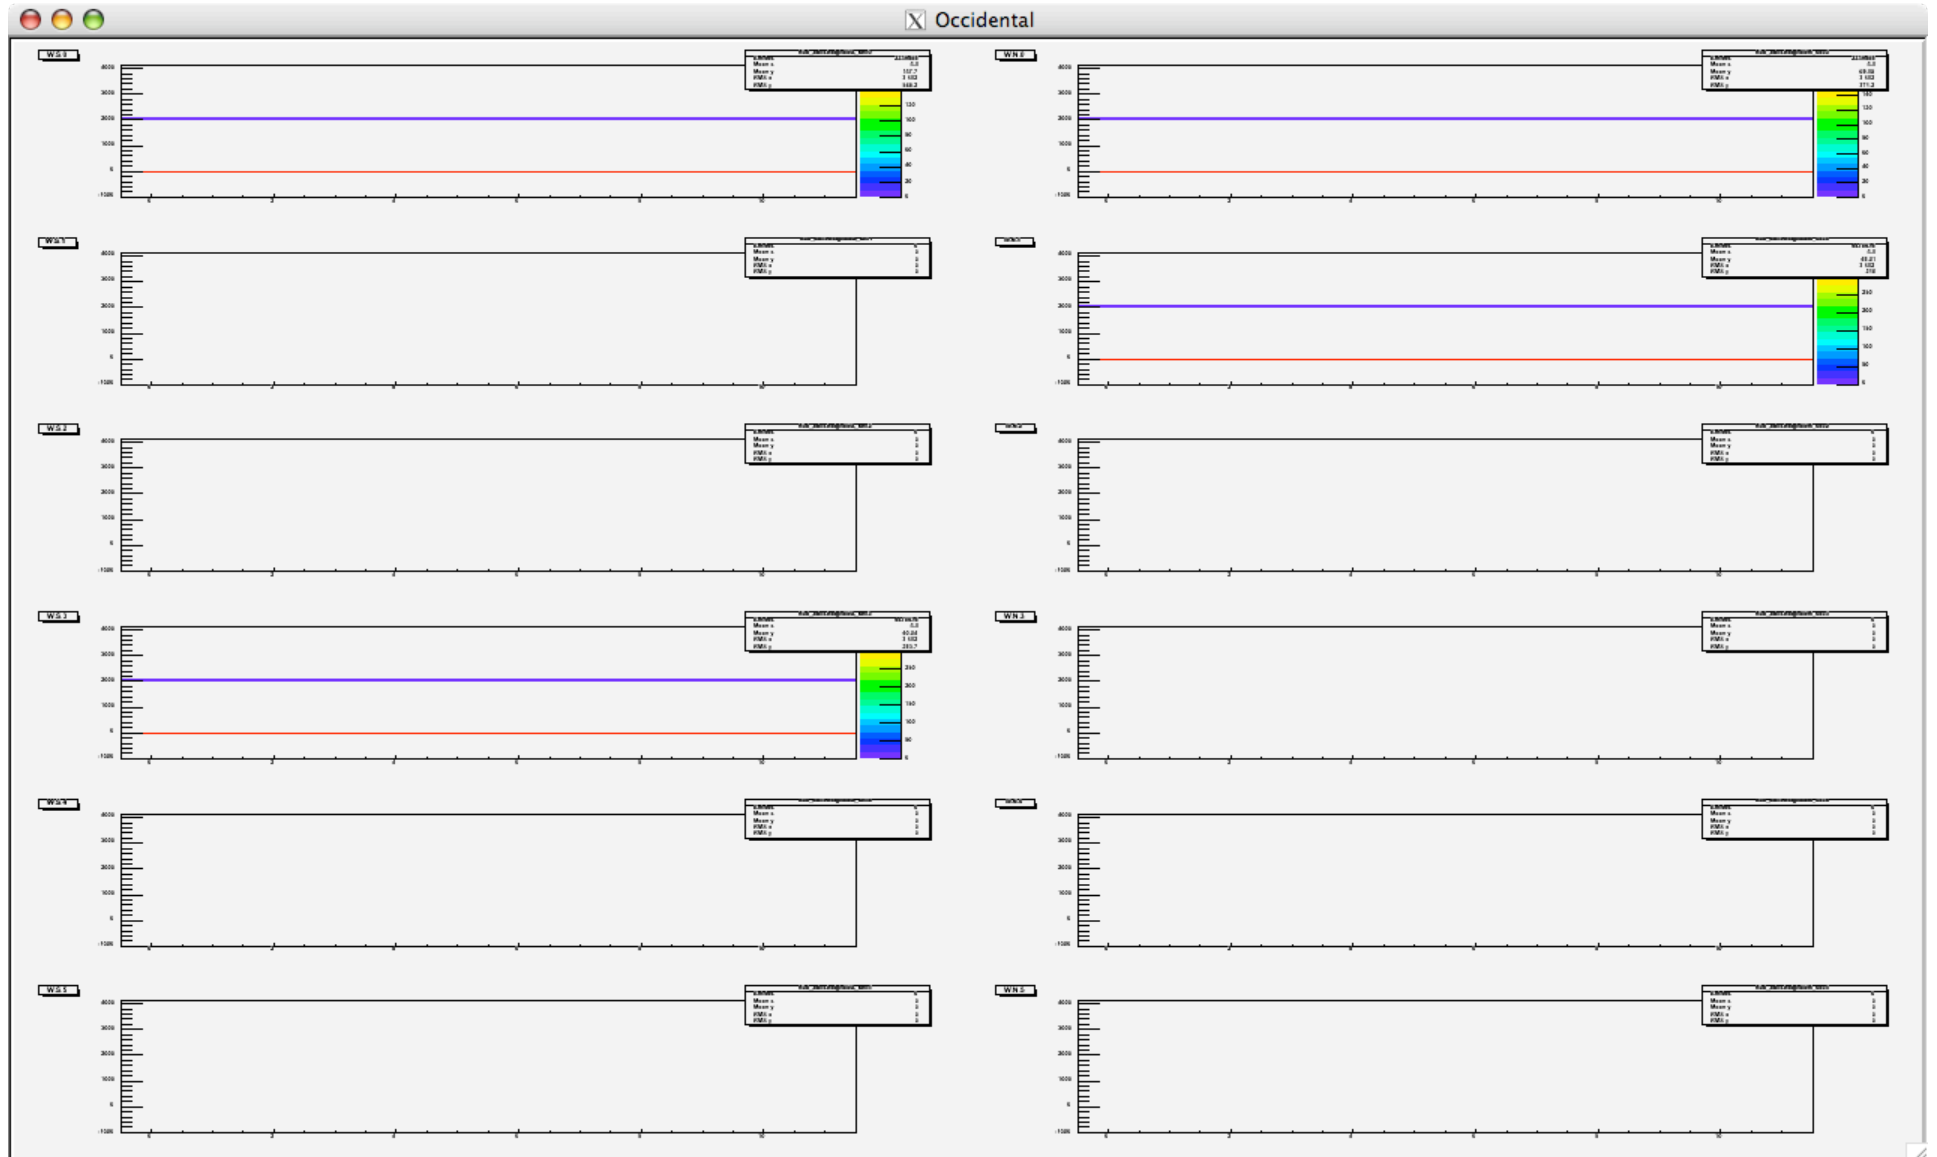

Zvi Citron

20 February 2007

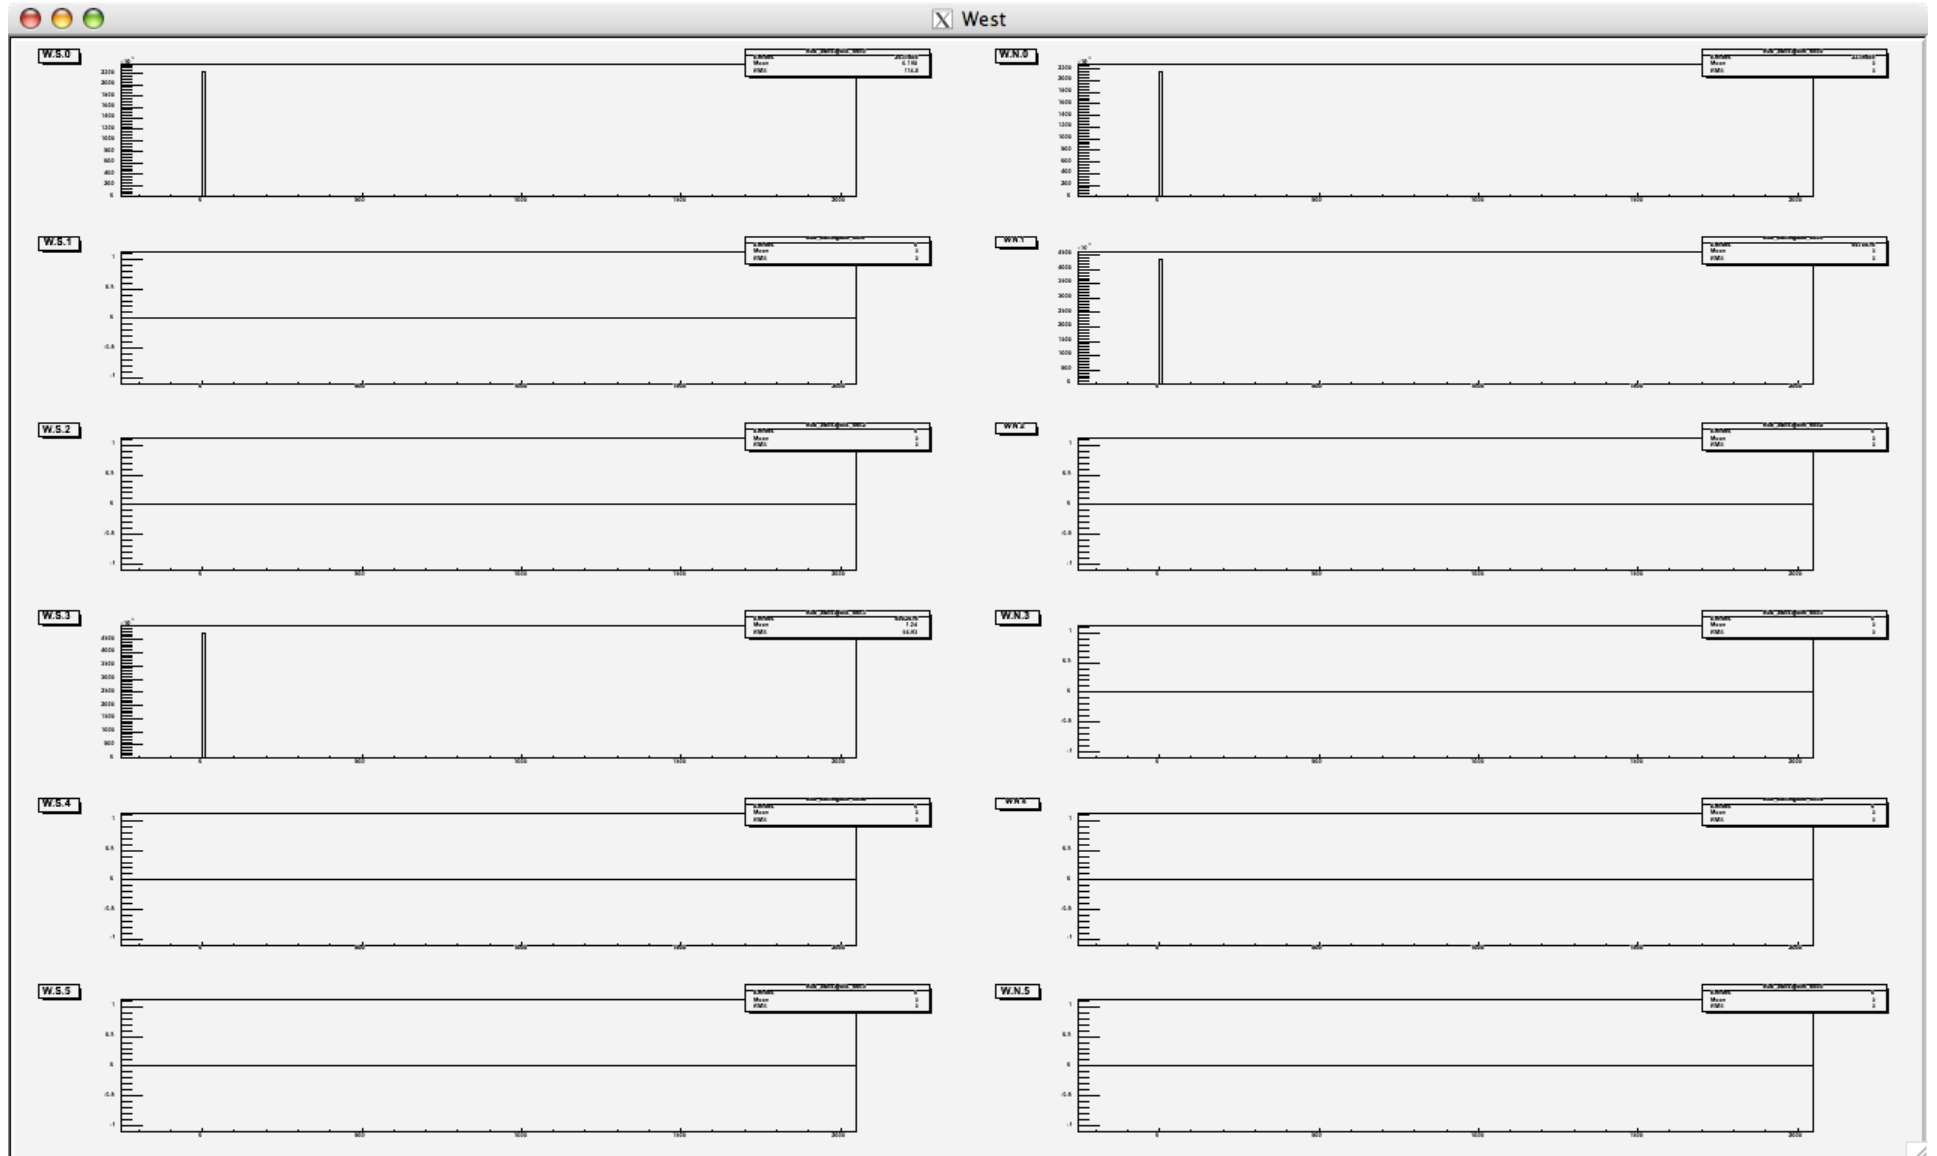

The online monitoring ...

- exists
- is not yet part of the build, but hopefully will become so todayish.
- still has lots of evolving to do

The ADC distributions for the west

(What will eventually be) the West signal

What's next?

- Test pulse; run monitoring system over prdf used by Deepali if possible
- Event display at the cell level
- Suggestions?
